Rail Critters is a free Android runner by Lopand Game Studio. Jump fences, slide under signs, climb ramps onto the train roofs and collect coins while the track rises, dips and turns through three worlds: the meadow, the desert and the night forest.

It has six characters and six outfits (the axolotl and the luchador suit are shop exclusives), power-ups, missions, a daily challenge with the same track for everyone, and achievements and leaderboards on Google Play Games. No ads; the optional purchases (two exclusives and supporting the studio) only change how it looks, and it plays offline.
